Séminaire de Modélisation du Vivant  
en Région Rhône Alpes

David Gfeller

## Computational modeling of cancer-immune cells interactions

Tuesday, the 4th of April 2017  
14h00 - Espace Tête d'Or  
Villeurbanne

Anthony Ferrari (CRCL, Lyon)

A phenotypic and mechanistic perspective on heterogeneity of  
HER2-positive breast cancers

Matthieu Foll (CIRC, Lyon)

needlestack: an ultra-sensitive variant caller for multi-sample next  
generation sequencing data with applications to circulating tumor  
DNA detection.
